Title: Need to construct a platform shed at the Canning Railway station in West Bengal-laid.

SHRIMATI PRATIMA MONDAL (JAYNAGAR): Canning railway station over Sealdah-Canning line is one of the busiest ones in the state of West Bengal. It falls under my parliamentary constituency area and witnesses a heavy footfall from the adjoining areas and serves the tourist population as the gateway into the forests of Sundarban. This clearly depicts the importance of the railways station. Here, I would also state that the area experiences extreme weather conditions be it the scorching heat, heavy rainfall and lightning or chilly winds. The Absence of platform shed causes great discomfort for the waiting passengers, at Canning Railway Stations. Thus, the significance and importance of a platform shed at Canning Railway Station cannot be ignored. Thus, I would like to request the minister for constructing a platform shed over the Canning Railway Station.
