Title: Regarding Paradip-Hyderabad pipeline project -laid.

SHRI CHANDRA SEKHAR SAHU (BERHAMPUR) : The Paradip-Hyderabad Pipeline project has been traversing through 6 districts of Odisha . The project cost of this Pipeline was Rs.3808 crore and was targeted to be completed by August 2020. The pipeline having a capacity of 4.5 Million Metric Tonnes Per Annum proposes to take its inputs from Paradip refinery and proposes to feed one of the upcoming petroleum product depots at Berhampur in Odisha. The pumping facilities will also be installed at Paradip and Berhampur in Odisha. I would like to know from the Hon'ble Minister for Petroleum and natural Gas about the status of this project particularly the upcoming petroleum depot at Berhampur. Whether it will be located in TATA SEZ area or any other location has been identified for the depot and also the time by which depot at Berhampur will be operational so that the objectives of the pipeline are obtained at the earliest.
