Title: Request for Investigation about Private Organization and a Private Society SWAERO that is operating the School administration for SC, ST & OBC under Telegana Government by NIA.

SHRI RAGHU RAMA KRISHNA RAJU (NARSAPURAM): This is with regard to the State of Telangana. There are various schools, colleges and hostels run for the SC, ST and OBC. That is called as Telangana Social Welfare Residential Education Society – TSWRES. Though that is the organization which is entirely run with the funds of the State Government, the Secretary of that particular organization is an IPS Officer whose name is ... *. He is a 1995 batch officer. He has been continuing there for the last ten years in the same post. He started a private organization and a private society with the name SWAERO. Indirectly, that is operating the entire school's administration and they were having their own anthem. They teach or preach against the Hindu Gods which is totally disturbing the fabric of secularism of our country. They do not allow Hindu festivals to be celebrated and they say 'Narakasura' is our ancestor. We should not celebrate Deepavali. These kinds of preaching are being taught and they are creating their own empire. There are several incidents of rapes and abductions but there was no proper police inquiry.

Recently, I had submitted one representation to the hon. President of India personally to ensure that as per the business rules, they are not supposed to have a private organization. Any Government officer is not supposed to run a separate private organization. Subsequent to my meeting with the President of India, I got several threatening calls. I

have been continuously getting calls. Since I am in the Parliament, I am not getting calls. I would have got more than 300-400 calls. Recently, one of my Parliament colleagues, Mr. Sanjay's vehicle has been attacked. This is a very important issue. His vehicle has been attacked. So, these kinds of incidents are happening. I urge the Home Ministry to entrust this work to NIA or some agency and investigate the real activities and who is there behind ... * and since he has been there for the last ten years, shift him to some other post. Let us preserve the fabric of our secularism and protect the students.
