Title: Need to set up a plastic recycling unit in Jaynagar Parliamentary Constituency, West Bengal - Laid

SHRIMATI PRATIMA MONDAL (JAYNAGAR): The Government has been stressing on Swachh Bharat Abhiyan. Waste and pollution are obviously one of the most important issues that need to be dealt with. We are planning a complete ban on plastic usage. Here my main concern is about the fact that there are very few waste recycling units in the country. In an effort to make my constituency zero waste producing area, I am facing grave difficulties. My humble request to the Government is to set up a plastic recycling unit in Jaynagar Constituency and help me to achieve the vision of Clean India.
