Title: Regarding waiving off cut-off conditions for NEET PG -laid.

DR. SANJAY JAISWAL (PASCHIM CHAMPARAN): There is a need to waive off the requisite cut-off conditions for NEET PG.

This is to inform that many NEET PG seats go vacant every year because enough candidates above the cut-off do not opt for them. These seats remain vacant in prominent government medical colleges in para-clinical and basic subjects.

We all are aware that our country needs a lot of specialist doctors. At this moment, we have to see that no seat should remain vacant in PG NEET when aspiring candidates are waiting to take admission but could not get it due to requisite eligibility criteria.
