Title: Regarding implementation of scheme to remove Juliflora and allocation of funds for setting up of grove forest in Ramanathapuram District .

SHRI K. NAVASKANI (RAMANATHAPURAM): Sir, Ramanathapuram district is a dry belt with no waterbed resources from rivers or lakes. Moreover, due to Prosopis Juliflora, the groundwater is also affected. Hence, I request the Union Government to implement the special scheme to remove those Juliflora and also to set up a plan for grove forest. By setting up such a grove forest, the Juliflora will be removed completely, the groundwater level will also improve, and rainfall will also increase simultaneously. Hence, considering the need for water resources, I request the Union Minister to allocate sufficient funds to set up a grove forest in Ramanathapuram District.
