Title: Regarding the condition of Sikh Community in Meghalaya - Laid

SHRI DHARAM VIRA GANDHI (PATIALA): The Sikh Community is living in Shillong, Meghalaya for the last more than 100 years. But unfortunately for the last couple of months, they are being subjected to discrimination and communal violence, as a result of which they are living in constant fear, uncertainty and sense of insecurity. I call upon the Government of India to take urgent and decisive steps in order to allay the fears of Sikh Community and instill confidence in them in terms of security, dignity and livelihood.
