Title: Regarding completion of works pertaining to Medical college at Jaunpur, Uttar Pradesh- Laid - Laid

**SHRI SHYAM SINGH YADAV (JAUNPUR):** I draw the kind attention of Union Minister of Health and Family Affairs towards the following issues pertaining to the establishment of Medical College in Jaunpur, Uttar Pradesh.

The inauguration of Medical College at Jaunpur, Uttar Pradesh had been done by Hon'ble Prime Minister but the building is still incomplete. A couple of months back, the roof collapsed due to heavy rains. It is evident that the quality of construction is allegedly substandard. There is no OPD services, no pathology, no X-ray, no Corona related services or other emergency services in the Medical College, Jaunpur. The construction cost of the building increased manifold due to delay in completion. It is a loss to state exchequer. It may be clarified whether after inauguration of the Medical College by Hon'ble Prime Minister will the college start the process of admission of students from this year based on NEET 2021 results? There are no lecture halls, common rooms, administrative buildings, residential facilities for tutors and hostels for students. No inspection has been done by the National Medical Commission (NMC). Alleged Non-payment of wages of construction workers is also a issue due to which the construction work is getting delayed. I request the Hon'ble Minister to please look into the issues as mentioned above and taken necessary measures at the earliest.
