Title: Need to take necessary steps for controlling drugs smuggling.

SHRI PARVESH SAHIB SINGH VERMA (WEST DELHI): In recent years, it is being observed how drugs rackets have been busted by Indian security agencies across the country. India, located in the midst of the Golden Crescent and Golden Triangle is highly prone to drugs smuggling. However, Delhi has been used as a transit point to supply drugs across the country that have been smuggled from border areas. Also, it is found that many foreign nationals who are living on student visa and other types of visa are involved in illegal drug trade. Therefore, to save the youth from entering into social disaster, it is of utmost importance that this issue is taken up with highest level of priority and directions be given to relevant security agencies in Delhi to take necessary steps in this regard.
