Regarding implementation of Railway Coaching Terminal Project in Nemom, Kerala

ADV. ADOOR PRAKASH (ATTINGAL): I draw the kind attention of the Government towards the urgent need for implementation of Railway Coaching Terminal Project in Nemom, Kerala. The foundation stone for this terminal was laid in March, 2019. Detailed Project Report of Rs.117 crore was submitted to the Railway Board in November, 2019. Even after three years, the Railway Board has not initiated any further action. There is no justification for this inordinate delay. Development of Nemom Terminal is necessary to get the benefit of track doubling and to allot more trains to the State of Kerala. Immediate intervention of the Government is required to clear the confusion over this crucial project and to start the works without further delay.
