

Title: Re: Textbook revision and rewriting of history.

SHRI E.T. MOHAMMED BASHEER (PONNANI): Sir, the work of textbook revision and rewriting of the history are moving in a wrong direction. Instead of making our schools equipped to meet the challenges of the knowledge-driven society, revision of the text book has been used.

I urge upon the Government to desist from such a move. It is also prayed that an independent Commission consisting of eminent academicians be set up to look into the changes in the textbooks and its impact on India in the future.
