(a) whether the Food Corporation of India has drawn the attention of Government to the need to make the Corporation the main procuring agent in place of the State Governments on the ground that the Corporation has to take necessary blames for supplying foodgrains of inferior quality dumped on it by the surplus States; and

(b) Government's stand on the Corporation's request and also the reasons for granting permission for procuring inferior quality wheat at high prices ignoring the consumer's interest ?

THE MINISTER OF STATE IN THE MINISTRY OF FOOD, AGRICULTURE, COMMUNITY DEVELOPMENT AND COOPERATION (SHRI ANNASAHIB SHINDE) : (a) Yes, Sir.

(b) It is the Government's policy to extend the activities of the Food Corporation of India in the field of procurement to the maximum extent possible. However, the precise role of Food Corporation in each State depends on the local conditions and the system of procurement adopted by the State Government. The State Governments have been advised to employ the Food Cor-

poration of India as far as possible and if necessary to draw up a phased programme for making the Food Corporation of India the sole purchasing agency in the States. The Government had decided to purchase rain-affected wheat which was slightly discoloured but otherwise fit for human consumption at a discount up to Rs. 5 per quintal in order to protect the interests of the farmers.
