

be launched together with a livestock Development Programme. The aim should be to limit the livestock population to economically productive stock.

17. Plantations for meeting commercial and industrial needs should preferably be located far away from the habitat.

18. The policy of supplying forest raw materials on subsidised basis to users other than the rural poor should be reviewed so that raw material is supplied at the prevailing market price, with a view to induce such users to go in for massive afforestation programmes, as also to motivate small and marginal farmers to grow forest based raw material for industry at remunerative prices.

19. The use of alternative packaging material, such as corrugated card boards, plastic bags, etc. instead of wooden packaging, must be explored and encouraged.
