

## **Re: Sanctioning of a Multimodal Logistics Park in Jalgaon**

**SHRI UNMESH BHAIYYASAHEB PATIL (JALGAON):** The Government has launched the National Logistics Policy which aims to cut logistics costs by half to be near global benchmarks by 2030 by reducing the cost of logistics from 14 to 18 per cent of GDP to global best practices of 8 per cent. This policy will benefit Maharashtra immensely and will also help in creating employment opportunities. The Government has also proposed a Multi-Modal Logistic Parks in my Parliamentary Constituency of Jalgaon which is well connected through a network of roadways and railways. Jalgaon has immense potential since it has multiple export units and food processing facilities due to large-scale production of crops, pulses, banana, grapes and lemon. Additionally, there is also ample availability of vacant Government land which can be utilised for setting up logistic park in Jalgaon. I request the Government to sanction a Multi-Modal Logistic Park in my Parliamentary Constituency of Jalgaon which will result in cutting down the transport cost, leading to reduction in costs of goods. This will, in turn, benefit industries and consumers and create employment opportunities for the people of Jalgaon and provide impetus to the economic development and overall growth of Jalgaon.

**HON. CHAIRPERSON:** Dr. Sujay Vikhe Patil ? Not present.

Shri Mitesh Patel.
