

Regarding construction of Ankaleshwar-Burhanpur National highway project-laid

DR. HEENA VIJAYKUMAR GAVIT (NANDURBAR): NH-753 B which connects Ankaleshwar in Gujarat with Burhanpur in Madhya Pradesh traverses through 3 states of Maharashtra, Gujarat and Madhya Pradesh. National Highway 753-B passes through 4 talukas of my Parliamentary constituency of Nandurbar-namely Akkalkuwa, Taloda, Shahad and Shirpur. The stretch of NH-753B passing through my constituency was declared as a National Highway in 2021 and the Detailed Project Report for the same has also been prepared. However, there has been an inordinate delay in the completion of this highway which has immense potential of transforming my Lok Sabha constituency of Nandurbar. Since this project connects three major states of India, its timely completion will result in better connectivity, increase in tourism and overall economic development. Due to repeated delay in completion of the National Highway and dilapidated condition of roads there have been cases of accidents resulting in loss of life and property. I request the Government that in order to provide relief and better connectivity to the people of my Parliamentary Constituency, the Government should prepare a time bound plan for construction of Ankaleshwar Burhanpur highway at the earliest since it will have a multifold impact on the economic and social development of Nandurbar Parliamentary Constituency which has a major tribal population and ranks low on Human Development Index.
