

## **Regarding need to increase two more up-trains halts at Matla Station-laid**

**SHRIMATI PRATIMA MONDAL (JAYNAGAR):** I would like to draw the attention of hon. Minister of Railways towards an urgent matter of public importance in my Parliament Constituency, there is a Halt Station named Malta in Sealdah Canning Lane which was made operational on 15th August, 2021. Since then, people are getting the facility of availing four up and four down train services, but the problem remained same for the students of schools and colleges and employees of different sectors as there is no halt at Matla station during peak morning and evening hours. Due to this reason, people have to travel long to reach the next station to board their trains which takes more time and money. Therefore, I would request to increase at least two more up train halt in the morning 7.23 am and 10.05 am and two more down train halt at 16.35 hrs and 17.52 hrs at Matla station to solve this long pending issue for the better interest of the local people of my Parliament Constituency.
