

Regarding condition of roads

SHRI VIJAYKUMAR ALIAS VIJAY VASANTH (KANYAKUMARI): Sir, National Highway 47 is a very important road. The movement of multi-axle trucks on this road carrying boulders and building materials has damaged the road severely. So, I request the hon. Minister for allotment of sufficient funds for repairing the existing road.

Moreover, a four-way alternate road is also being built. But due to various constraints, the work of the new project is progressing very slowly. The major constraint is non-availability of land as well as pending payout to the land owners of 12 villages. Once this problem is settled, this project will be completed. So, I request the hon. Minister to give sufficient funds to improve the existing road and complete the new project immediately.
