

Regarding construction of the Inter Modal Bus Station in Tirupati-Laid

SHRI MADDILA GURUMOORTHY (TIRUPATI): Tirupati is one of the prominent devotional destinations for the Hindus across the globe. Nearly one lakh devotees visit Tirupati every day for the darshan of Shri Lord Venkateswara. Tirupati is not only a divine place but also a Medical and education hub with major important universities and Medical Colleges. For Medical, Educational, and Business purposes, people from the Rayalaseema region and Southern coastal district of Andhra Pradesh travel to Tirupati every day. The National Highways Logistics Management Limited has initiated plans to develop a state of the art Inter Modal Station (Passenger Transport Terminal Infrastructure (PTI) at one of Tirupati's busiest bus terminals in Andhra Pradesh. This new terminal aims to cater passenger demands and traffic volumes for the next 30 years. Previous representations have been given for early grounding and completion of this crucial project. Hence, I urge upon the Government to consider this long-standing issue and extend support to ensure the prompt initiation and completion of the Inter Modal bus station in Tirupati to cater to passenger demands and traffic volumes for the next 30 years.
