

Need to develop a new Greenfield Road Project between Akola, Maharashtra and Khandwa, Madhya Pradesh -Laid

SHRI ANUP SANJAY DHOTRE (AKOLA): Regarding a new road project that can significantly improve connectivity and reduce travel time between Indore (Madhya Pradesh) and Hyderabad (Telangana). Currently, there is no 4 lane highway in akola khandwa route. Developing a greenfield project between Akola and Khandwa can reduce the distance by 40-50 km and travel time by 2 hours. This project would bring employment and various other benefits.
