

## **Need for upgradation and modernization of Changanassery Market in Kerala ? Laid**

**SHRI KODIKUNNIL SURESH (MAVELIKKARA):** I would like to draw the kind attention of the House to the pressing need for the upgradation and modernization of the Changanassery Market, which serves as a vital hub for the trade of fish and vegetables in the region. The current state of the market is inadequate to meet the needs of both vendors and consumers. Poor infrastructure, lack of hygienic conditions, and insufficient storage facilities are significant concerns. The absence of modern amenities such as proper waste management systems, cold storage units for perishables, and well-ventilated trading spaces is affecting the livelihoods of vendors and the quality of produce available to the public. I urge the Government to allocate necessary funds and initiate a comprehensive development plan for the Changanassery Market. This plan should include the construction of modern stalls, installation of cold storage facilities, provision for proper drainage and waste disposal systems, and the creation of a clean and organized trading environment. Such measures will not only improve the market's efficiency but also enhance public health and ensure fair prices for both consumers and traders. I request the concerned Ministry to prioritize this matter and take immediate action to ensure the upgradation of the Changanassery Market.
