

**Need to expedite completion of construction work on various bypass roads in  
Nellore Parliamentary Constituency, Andhra Pradesh.-laid**

**SHRI PRABHAKAR REDDY VEMIREDDY (NELLORE):** There is no doubt that Government is doing exceptional work in construction of National Highways and Bypasses in the country to push economic activity, social development and provide infrastructure by connecting cities for efficient movement of goods and passengers, boost trade and improve markets across the country. As a part of construction of NHs, some Bypasses, such as Seetharampuram Bypass, Chundi Bypass, Voletiparipalem Bypass, Badevaripalem Bypass, Kandukuru Bypass, Ayyalurivaripalli Bypass, D.G. Peta Bypass and CS Puram Bypass on NH-167B in my Nellore Parliamentary Constituency have also been taken up. These Bypasses are supposed to be completed this month i.e., February, 2025. But, if one looks at the progress of construction of these Bypasses, it hovers between 70-75%. These are all small stretches and once they are completed, they help local people a lot to use these Bypasses. Hence, I appeal to Minister of Road Transport and Highways to complete them before the deadline.
