

Regarding fixation of fare in Bengaluru Metro

SHRI TEJASVI SURYA (BANGALORE SOUTH): Sir, the State Government of Karnataka recently requested to constitute a Fare Fixation Committee to review the prices of the Bengaluru metro. This Fare Fixation Committee has come up with a proposal to raise the ticket prices of the Bengaluru Metro, and in some instances, a more than 100 per cent rise in the Metro ticket prices has taken place. This has greatly impacted the middle-class of Bengaluru city who use Metro as a means of transportation every single day to work and for college education purposes. This has made Bengaluru Metro the most expensive Metro in the country.

Through you, my request to the authority concerned is to immediately review the anomalies in the Fare Fixation Committee reports, and rationalize the ticket pricing of Bengaluru Metro so that the poor, the common people and the middle-class people can afford it.
