

Regarding damage to onion crops caused by use of insecticide in Dindori Parliamentary Constituency

SHRI BHASKAR MURLIDHAR BHAGARE (DINDORI): Hon?ble Chairman Sir, in my Lok Sabha constituency Dindori, summer onion cultivation is going on at the places like Deola, Kalvan, Niphad, Yeola and chandwad. An insecticide named ?CLO GOLD? made by Indian pesticide company was used to remove weeds, but it has destroyed the onion crop completely. Standing crop on 250 hectare of land got damaged totally.

So, I would like to request Government to investigate this company, and the farmers should also get compensation for their losses.

I would also like to request to remove 20% export duty on onion export immediately.

Thank you.
