

Regarding setting up of industries in Kalahandi Parliamentary Constituency

SHRIMATI MALVIKA DEVI (KALAHANDI): Madam, thank you for giving me an opportunity to speak during Zero Hour today. I would like to raise an important issue for my constituency of Kalahandi. The people of my constituency have to go out and look for jobs. There were some industries which were declared as sick industries and have hence closed down. I would request the Government to please look into these and ensure that they are started again as you know that industrial development is the base that leads to huge job opportunities for the people of our constituency and hence leads to the full economic development. These industries are: Konark Cotton Grower Spinning Mill at Kesinga; and the Western Orissa Sugar Mill at Junagarh. Please look into these and restart them as soon as possible as there is a huge public demand from the people of my constituency. I would also request the Government to revive other sick industries, maybe through the PPP mode, as it would start fast and would really help the people of Kalahandi achieve the dream of Modi Ji, Viksit Bharat, Viksit Odisha, Viksit Kalahandi.
