

### **Regarding Atal Tinkering Labs in Telangana**

**SHRI CHAMALA KIRAN KUMAR REDDY (BHONGIR):** Thank you Madam for giving me this opportunity.

Madam, in Telangana, recently, we have started integrated schools. We are starting these integrated schools in every constituency, that is 119 in number. We have issued a G.O. No. 56. Our Chief Minister, Shri Revanth Reddy has provided G.O. No. 56 regarding integrated schools. My request to the Minister is that these Atal Tinkering labs are very useful and this country needs them. Therefore, I request the Minister to accept the proposal for Atal Tinkering Labs for these integrated schools, where our Chief Minister is trying to provide free education for the backward communities. He is allocating Rs.200 crore for land of 25 acres. Atal Tinkering Labs have significantly improved students' interest across the country.

This will undoubtedly benefit the State of Telangana, as we have already initiated these integrated schools. This is the need of the hour. I request that these Tinkering Labs be introduced in our Telangana to help students learn more.
