

Need for construction of ROB's and RUB's at several locations/railway stations in Kanyakumari Parliamentary Constituency, Tamil Nadu.-laid

SHRI VIJAYAKUMAR ALIAS VIJAY VASANTH (KANYAKUMARI): I would like to draw attention of the Government to the pressing railway demands in the Kanyakumari Parliamentary Constituency, which require immediate consideration for the betterment of the region. The constituency, known for its tourist attractions and growing population, faces significant transportation challenges. Firstly, there is a need for the upgradation of the Kanyakumari and Nagercoil railway stations to world-class standards. This would not only improve the passenger experience but also boost tourism. Furthermore, there is an urgent demand for the introduction of new train services, including a daily express connecting Kanyakumari. The extension of suburban services, would significantly improve regional connectivity. Additionally, the construction of Road Over Bridges (ROBs) and Road Under Bridges (RUBs) at several locations such as Kappiyarai, Kuzhithurai, and Marthandam is critical to ensuring safety and reducing traffic congestion. These railway infrastructure improvements are essential for the economic growth, safety, and convenience of the people of Kanyakumari. I urge the Government to prioritize these demands for the welfare of the people in our region. I request the Government to allocate 1500 crore in this regard.
