

Need for establishment of an IIIT in Mahbubnagar Parliamentary Constituency, Telangana-Laid

SHRIMATI D. K. ARUNA (MAHBUBNAGAR): The primary aim of IIITs are to develop as the global centres of excellence in education, training, and research, fostering innovation and entrepreneurship, while also preparing students for careers in IT or advanced research. In my Constituency, setting up of IIIT is the need of the hour and very much required because my Constituency has a number of industries and a large number of people from other States are working in these industries but the lack of institutes such as IIIT in Mahabubnagar District Headquarters are hindering the progress. There is heavy demand from the local people to set up the above said Technical Institutes on priority basis to cater to the needs of the job aspirants and technically qualified and setting up of these institutes are very much essential to provide jobs to the local people. The local people are reminding me frequently whenever I tour in my Constituency which is in dire need. Therefore, I request the Hon'ble Minister of Education to kindly consider the proposal to set up IIIT in Mahabubnagar District Headquarters which falls in my Mahabubnagar Parliamentary Constituency in Telangana State.
