

Need to upgrade IGM Hospital in Bhiwandi to a District hospital

SHRI BALYA MAMA SURESH GOPINATH MHATRE (BHIWANDI): Hon. Chairperson, there is a district hospital called Indira Gandhi Memorial Hospital in my Bhiwandi Lok Sabha Constituency. The total population of Bhiwandi city and rural area is around 20 lakh. One more sub-district hospital has been sanctioned for my Constituency and its construction is underway. But, considering the total population, these medical services are not upto the mark and quite insufficient. Earlier, there were only 112 sanctioned posts and 258 new posts have been created. Total posts are 366 but, no administrative approval has been given to it for financial expenditure. So, these posts are still lying vacant and patients are deprived of medical services.

I request you to join this Sub-district hospital and district hospital together.
