

Regarding financial crises being faced by the two campuses of Aligarh Muslim University

SHRI ABU TAHER KHAN (MURSHIDABAD): Thank you, madam. I would like to draw your kind attention to a very important issue. Aligarh University plays a leading role in the field of education in India. Among the universities that exist, especially for minority Muslims, Aligarh University is one of the most important institutions. There is a financial crisis going on in that university and no matter what is being said by this government, they are not paying attention to this university. Unfortunately, this educational institution is being sabotaged. Besides, Aligarh University has a second campus in Murshidabad. It has been ten years but no measures are being taken to ensure proper management of that campus. This second campus is in dire financial straits. And no work is being done in the educational upliftment of this university as well.
