

**Regarding establishment of Krishi Vigyan Kendra in Thanjavur Parliamentary Constituency, Tamil Nadu-Laid**

**SHRI MURASOLI S. (THANJAVUR):** Rice is the primary crop cultivated in Thanjavur Delta region, often called as the Granary of Tamil Nadu. I urge that an Agricultural Science Centre (Krishi Vigyan Kendra) should be set up in Thanjavur benefitting the farmers of this area. This will be helpful in the effective implementation of the newly started National Mission for Agriculture. I therefore urge upon the Union Government to open an Agricultural Science Centre (Krishi Vigyan Kendra) in Thanjavur Parliamentary Constituency for the benefit of farmers.
