

Regarding need to restore stoppage of trains withdrawn during covid-19 pandemic in Ongole Parliamentary Constituency, Andhra Pradesh-Laid

SHRI MAGUNTA SREENIVASULU REDDY (ONGOLE): During the COVID-19 pandemic, several train stoppages in the Guntur Division of South Central Railway were withdrawn as a temporary measure. However, even after the resumption of normal operations post-COVID-19, these stoppages have not been restored. This has caused severe inconvenience to the people of Guntur Division, particularly in my Ongole Parliamentary Constituency. Daily commuters, farmers, students, and traders are facing immense hardship due to the lack of accessible rail services. The non-restoration of train stoppages is adversely affecting the economic and social activities in the region. I urge the Hon?ble Minister of Railways to take immediate steps to restore all the withdrawn train stoppages in Guntur Division at the earliest, to alleviate the difficulties faced by the people and ensure seamless connectivity in the region.
