

**Need to make CGHS Wellness Centres in Tirupati, Andhra Pradesh functional.-  
laid**

**SHRI MADDILA GURUMOORTHY (TIRUPATI):** I wish to raise the long-pending issue of the CGHS Wellness Center in Tirupati, which remains non-functional despite being announced over a year ago. This matter was raised earlier as well, but there has been no progress. The delay in staff approvals is causing serious hardship to Central Government employees, pensioners, and their families who lack access to healthcare. I urge the Government to operationalize the center immediately using existing staff or contract staff until regular appointments are made. Further, the proposed 100-bedded ESI hospitals at Sricity (Tirupati District) and Nellore are yet to be grounded. Construction has not commenced despite sanction. Also, ESI dispensaries at Satyavedu, Tirumala, Naidupeta, Varadaiahpalem (Tirupati District), and Muthukuru (Nellore District) remain non-operational, affecting thousands of workers. I request the Hon?ble Minister to ensure these healthcare facilities are made functional without any further delay.
