

**Need to take comprehensive measures for safety and security of Sri Harmandir Sahib (Golden Temple) in Amritsar, Punjab ? Laid**

**SHRI CHARANJIT SINGH CHANNI (JALANDHAR):** I wish to raise a matter of urgent public importance concerning the repeated bomb threats received by Sri Harmandir Sahib (Golden Temple), Amritsar—a site of immense spiritual significance for crores across the globe. In the past one week, over seven bomb threat emails—some referencing RDX explosives—have been sent targeting the holy shrine. Despite the detention of one suspect, the threats continue unabated. This raises serious concerns about the efficacy of the ongoing investigation and the possible existence of a broader conspiracy. This issue is far beyond local law and order. It is a direct attack on our national security, religious harmony, and public faith. I urge the Union Government to deploy central agencies like the NIA and cybercrime units to thoroughly investigate the source of these threats; ensure coordinated 24x7 security service between Punjab Police and central forces; issue a formal assurance in the House on the protection of all religious sites from such threats; and frame a national strategy for digital surveillance and protection of religious sites. Sri Harmandir Sahib is a symbol of India's unity and peace. Its protection must be a national priority.
