

Regarding granting of a Medical College for Nuapada district in Kalahandi Parliamentary Constituency

SHRIMATI MALVIKA DEVI (KALAHANDI): Thank you, Chairman, Sir, for giving me an opportunity to speak in the Zero Hour today. I would like to request the hon. Minister of Health and Family Welfare, through you, to please grant us a medical college for Nuapada district in my Kalahandi constituency. It is an aspirational district and does not have any higher education college. It would be a big development for the area if the hon. Minister would grant this as not only would people be able to pursue their career from their own constituency but also the opening of a medical college would help the people in a big way by offering different kinds of treatment to the people of the constituency. Students from different areas would also come to Nuapada for higher education which would benefit Nuapada in every way. I am hoping and praying that Nuapada medical college is sanctioned and the work starts soon. Thank you so much, Sir.
