

Regarding deteriorating peace and security condition in West Bengal

SHRI SAUMITRA KHAN (BISHNUPUR): Thank you, Chairperson Sir. Every day, we are witnessing something akin to a theatre being enacted in this House, and this theatrics is performed by none other than the All India Trinamool Congress MPs. In West Bengal, Bengali women are being attacked, raped, and murdered. The state government has failed to protect the honour of the Bengalis. I know that whenever elections occur, many people will once again lose their lives. I demand that government jobs be given to the families of the victims. The hon. Chief Minister, Mamata Banerjee, has also indulged in theatrics, which are nothing but part of a grand drama designed to fool the people. Bengalis are living in hunky-dory conditions. We, the Bengalis, will progress under the leadership of our hon. Prime Minister. But under the patronage of the hon. Chief Minister of West Bengal, people are being murdered every day. The hon. Governor of Haryana, Shri Ashim Kumar Ghosh, is also present in West Bengal.

These people engage in theatrics in the House, while back in West Bengal, murders are taking place under their watch. These killings must stop. If someone is murdered, there must be a provision to provide a government job to a member of the victim's family. Thank you.
