

Regarding the need for immediate allocation of funds for comprehensive sea erosion control measure

SHRI VIJAYAKUMAR ALIAS VIJAY VASANTH (KANYAKUMARI): Thank you hon. Chairman, Sir. I rise today to draw the attention of this esteemed House to a critical and urgent matter concerning my Kanyakumari constituency.

Sir, due to sea erosion, the infrastructure has been damaged vastly. I request the Government to allocate immediate funds for comprehensive sea erosion control measures including construction of sea wall, groynes and other scientific interventions to safeguard the coastline; restoration and strengthening of damaged road networks to ensure uninterrupted connectivity for fishing villages; rehabilitation support for affected families to protect their homes and belongings from further destruction; long-term sustainable development plans to support the fishing communities in adapting to the changing environmental conditions.

Sir, I appeal to the Government to treat this issue of constructing the sea walls on war-footing and ensure that the necessary funds and resources are provided without any delay. Thank you.
