

Regarding need for establishment of a National Skill Centre for Southern India in Malkajgiri Parliamentary Constituency-Laid

SHRI EATALA RAJENDER (MALKAJGIRI): I wish to draw the attention of the Government to the announcement made during the recent Job Mela at Law PG College, Hyderabad, regarding the establishment of the National Skill Centre for Southern India. Large parcels of government land are available within my Malkajgiri Parliamentary Constituency, which is strategically located in and around Hyderabad and ideally suited for hosting such a prestigious institution. Malkajgiri is often described as a "Mini India," with people residing here from all corners of the country, many of whom come seeking livelihood opportunities. Establishing the Skill Development Centre here would therefore serve as a national hub for training and empowerment. I urge the Government to direct the concerned officials to inspect these sites and make suitable recommendations at the earliest.
