

Regarding the need for construction of a railway flyover in Amravati

SHRI BALWANT BASWANT WANKHADE (AMRAVATI): Honorable Chairperson Sir, the issue of the railway flyover in my city of Amravati has become a matter of great concern and is being discussed widely among the public.

This bridge was a British-era bridge and over the time it got deteriorated. Instructions were given to demolish it, but instead of demolishing the bridge, some people are trying to shift the railway station itself. This is being done through the land mafia or other people who have their own interests. In this regard, I informed Hon'ble Shri. Gadkari ji and Hon'ble Shri. Vaishnav ji, and accordingly, they ordered the state government to complete the work.

I request the Union Government through you that the bridge be constructed as soon as possible and the railway station be kept there without changing the location.

Thank you.
