

Regarding demand for stoppage of additional express and super-fast trains at Tiruvallur

SHRI SASIKANTH SENTHIL (TIRUVALLUR): Thank you, Chairperson Sir, for giving me this opportunity. I would like to make a very important demand for my constituency. It is a very simple demand but it is a very long-pending demand.

Tiruvallur is a very important place near Chennai. It is just 42 kilometres from Chennai. Most of the workforce comes from Tiruvallur to Chennai. They travel through a particular train. Now, the problem is that the population has increased so much that there is a constant demand for additional express and super-fast trains to stop at Tiruvallur. I have made this demand consistently with the Railway Minister to consider this fact because Tiruvallur is now the hub of work. Sriperumbudur is also nearby. I urge the Railway Minister to consider this stoppage for all the additional express and super-fast trains at Tiruvallur.
