

Need for flyover at Turkayamjal stretch on Nagarjuna Sagar road in Telangana alongwith conversion of Balanagar to Gandimaisamma X road stretch and Rajiv Rahadhari road in the state to National Highways -Laid

SHRI EATALA RAJENDER (MALKAJGIRI): The Nagarjunasagar Road, particularly the Turkayamjal stretch, has been experiencing severe traffic congestion due to rapid urban expansion and increased vehicular movement. I urge the Government to sanction a flyover on this critical corridor to alleviate traffic bottlenecks, enhance road safety, and ensure smoother connectivity for commuters and freight vehicles. The Balanagar to Gandimaisamma X Roads stretch, which forms a vital part of the Medak-Nanded Highway, plays a key role in inter-state connectivity between Telangana and Maharashtra. I request the Government to include this stretch in the National Highway network and to sanction an elevated corridor to support uninterrupted long-distance travel and regional economic integration. The Rajiv Rahadhari, connecting Hyderabad to Karimnagar and northern Telangana, is a major arterial route serving lakhs of daily commuters and freight operators. I appeal for its inclusion in the National Highway system, which will ensure better infrastructure standards, sustained maintenance, and improved logistics across the region. Therefore, I appeal to the Honourable Minister of Road Transport and Highways to kindly consider these proposals for early approval and necessary action.
