

Regarding problem of drinking water and need for release of funds for better research facilities

SARDAR SARABJEET SINGH KHALSA (FARIDKOT): Madam Chairperson, my constituency is facing acute problem of drinking water as well as for agriculture and the Government must take some remedial measures for this problem. Due to this problem pertaining to water, cancer is also spreading very fast. There is a Health University in my constituency and the Government should release substantial funds for this University so that the patients and researchers may be provided better facilities there. Therefore, I request you to make necessary arrangements for water as well as funding. Thank you.

माननीय सभापति: माननीय सदस्य श्री प्रदीप पुरोहित जी ।
