

**Regarding need to address problem faced by fishing community and setting up of seawalls (fishing hook bend type) along the coast of Puducherry**

**SHRI VE. VAITHILINGAM (PUDUCHERRY):** Hon. Madam Chairperson, Vanakkam. Thank you for this opportunity. Puducherry faced heavy rains and cyclone last month. I must say that giant sea waves and heavy rains have caused erosion along the coast impacting the lives of fishermen community. Solai Nagar(North), Solai Nagar (South), Chinna Kalapet, Periya Kalapet, Ganapathichettikulam, Pillaichavady are some of the places affected by sea erosion. In order to protect the lives of people belonging to fishing community in all these areas, a fishing hook bend type of protection walls should be constructed along the sea coast of Puducherry.

[If the UT Government of Puducherry is unable to set up fishing hook bend type protection walls \(sea walls\) along the sea coast of Puducherry, I urge that the Union Government should come forward to help in setting up of such seawalls along the coast of Puducherry.](#)
