In December'96, a decision was taken that the entire quantity of wheat allocated for different States under Open Market Sale Scheme (Domestic) be allocated to the respective State Government/UTs. The system of allotment through the three-member committee will, however, continue in these States/UTs which were not willing to undertake the sale of wheat under OMSS (D). The State Governments have taken over the distribution of wheat against the monthly allocation made by FCI under the scheme except in the following States:

Delhi, Rajasthan, Himachal Pradesh, Orissa and Tamil Nadu.

- (c) and (d) Open Sale Scheme was started with a view to increasing availability in the market and thereby containing sharp rise in prices. In order to augment the availability of wheat in the country, Government of India decided to import upto two million tonnes of wheat. This will also augment the buffer stock level.
- (e) In addition to import of wheat, steps are being taken to increase procurement of wheat from March, 1997 at a higher level than 1996-97.

(f) Contracts for 16.75 lakh MT have been concluded so far, of which a quantity of 5.40 lakh tonnes has arrived in the country. The entire quantity of imported wheat will form part of the Central Pool and be distributed under PDS/RPDS and other Welfare schemes to the States/UTs.
