Answer

THE MINISTER OF STATE IN THE MINISTRY OF HEALTH & FAMILY WELFARE (SMT. PANABAKA LAKSHMI)

- (a) A statement showing the decadal rate (%) growth of population state-wise is at Annex `A` .
- (b) Year-wise details of use of contraceptive devices during the last three years are at Annex `B`, `C` and `D` .
- (c) and (d) A large number of factors influence the population growth such as availability of the family welfare facilities in the public health system, poverty, illiteracy, unmet needs for family planning etc. The Government has launched National Rural Health Mission (NRHM) to provide effective healthcare to rural population by strengthening public health system in all the States with special focus in 18 States with low demographic indicators and infrastructure. Effective implementation of NRHM would ensure quality care in all fields including family welfare services. The Reproductive and Child Health Programme under the National Rural Health Mission(NRHM) envisages a variety of reproductive health services to meet the unmet demand of the population including family planning needs.

The Government has adopted a multi pronged strategy to spread the awareness on Family Planning methods. This strategy utilised multimedia tools in print electronic media. At the same time interpersonal/behavioural change communication tools are deployed to disseminate information and spread awareness. This Ministry regularly telecast/broadcasts the video and audio spots through National Channel of Doordarshan, Private Satellite Channels and All-India Radio to spread the message of family planning methods. Print material like posters, leaflets on Family Planning Methods have been printed and released to States for distribution to the public. The services of Anganwadis under the Integrated Child Development Scheme (ICDS) are also utilised in this regard.
