

Title: Urged the government to intervene in the matter of functioning of the Karur spinning mill.

SHRI M. CHINNASAMY (KARUR): I would like to raise an important issue pertaining to my constituency. In Tamil Nadu there is a spinning mill popularly known as Karur Spinning Mill. For the past fifty years the mill had been functioning in profit with two thousand workers. Two years ago, the management all of a sudden ran away to Mumbai in the mid-night without any reason, without any notice or intimation to the workers.

Now the workers have been agitating. More than two thousand workers have been rendered jobless. They are unable even to pay the school fees of their children. As a result, many of the school going children have discontinued their studies. As a Member of Parliament I had written to the management of the mill and the Minister concerned. But, so far there has been no response either from the Government or from the management side.

I would therefore urge upon the Central Government to intervene in the matter immediately and settle the issue.
