Title : Problems being faced by farmers of Anantapur, district of Andhra Pradesh.

SHRIANANTHA VENKATARAMI REDDY (ANANTAPUR): Sir, Anantapur District, Andhra Pradesh is continuously a drought-affected district for the past several decades. It is treated as next only to Jaisalmer in Rajasthan. Earlier there was drought twice in three years. But in the past seven years, there has been drought every year. The farmers who are unable to face the situation are forced to commit suicide. Though the *kharif* season has started over two months ago, there is no rainfall at all. Out of 63 mandals in our District, only a minimum of rainfall of 21 mm was there and that too in only twenty mandals, whereas it was to be 177 mm. Till now there is a minimum rainfall in 25 mandals only and farmers have sown the seeds. Due to acute shortage of rainfall, the seeds are not sown and the farmers are in great distress.

I would urge upon the Government of India, through you, to immediately come to the rescue of the farmers of Anantapur District, Andhra Pradesh and to take long-term measures for providing alternative sources of irrigation and see to it that the problems of the farmers are solved. The issue is very serious and it needs immediate attention of the Government of India and remedial measures should be taken to help the farmers of the District.
