Title : Need to supply natural gas through pipelines in Kolkata, Siliguri and Howrah cities of West Bengal.

SHRI PRASANTA KUMAR MAJUMDAR (BALURGHAT): Government of India is supplying natural gas through pipelines in the major cities of the country. But it is not being supplied in Kolkata which is the capital of West Bengal and also one of the most populated metropolitan cities in India. Pipelines should be immediately laid to provide PNG in Kolkata along with Siliguri and Howrah. Moreover PNG is cheaper than LPG cylinder.
