Title: Need to construct a Railway Over Bridge at level crossing in Akkarapettai near Nagapattinam in Tamil Nadu.

SHRI A.K.S. VIJAYAN (NAGAPATTINAM): I would like to draw the kind attention of the Hon'ble Minister of Railways for one the most important proposals of my Nagapattinam parliamentary constituency for constructing an ROB at Akkarapettai in Nagapattinam.

There is a place called Akkarapettai situated between Nagapattinam and Nagore. The people of these areas are facing great difficulties in crossing this Akkarapettai due to non-availability of an ROB. Due to frequent rail traffic, the railway gate at Akkarapettai closes very frequently and the people have to wait a long time in crossing this railway gate and they have to wait a long time in crossing this railway gate and they have to rush to cross the railway line which leads to frequent accidents and death of these innocent people. This causes inconvenience to the people at large and patients and school going children in particular. If an ROB is constructed in Akkarapettai, it will be of great help to them.

Keeping in view the above, I urge upon the Railway Minister to take up this work on top priority basis for the benefit of the people.
