Title: Need to undertake construction of an over-bridge at railway crossing on State highway no. 7 near Mungra Badshahpur in Uttar Pradesh.

SHRI DHANANJAY SINGH (JAUNPUR): Allahabad - Mungra Badshahpur State Highway No. 07 is an important road for the people of the region. Both goods and passenger vehicles use the road in large numbers. The road has a railway crossing near Mungra. This is a major Railway Line through which lots of trains cross frequently. This leads to the frequent closure at the level crossing and huge traffic jams, causing inconvenience to the people. Also, it is a huge safety risk like all other railway crossings.

Therefore, I would like to request the Hon'ble Railway Minister to kindly sanction the construction of an Overbridge at the crossing so that smooth movement of traffic can be ensured along with safety of the people.

This is an important demand of the people of the region and in view of the Railway's policy to eliminate all railway crossings on major roads, construction of this overbridge should be undertaken immediately on a priority basis.
