Title: Need to provide technical guidance and financial assistance for flood management in Arambagh Parliamentary Constituency, West Bengal.

**SHRIMATI APARUPA PODDAR (ARAMBAG):** Arambagh constituency is a land of rivers with agricultural area. Rivers like Damodar, Mundasari and Rupnarayan are flowing along Arambagh which is responsible for flood and drainage problem in the blocks of Haripad, Khanakul, Tarakeshwar and Arambagh.

To increase the carrying capacity of these rivers, removal of silt of Damodar and Mundasri is very important which will help to control flood in Arambagh Constituency.

So, I urge the Government to provide technical guidance and financial assistance to control flood in Arambagh.
